

Fall Protection Kit

The most cost effective way to make workers safety compliant. Owners like it because they can demonstrate due diligence for each worker, and all the height safety requirements are in one package. If you need a kit changed in any way we can do this for you, e.g. you can upgrade the harness, upgrade the anchor, change the rope or rope grab. You may add a hard hat, glasses, gloves, first aid, or whatever you consider is necessary. Choose from our standard kits or we can customize a kit for your company.

Standard Roofer's Kit

- Roofer's full body harness with one back D-ring. (Group A).
- Rope grab with integral 2ft shock absorbing lanyard and snap hook
- Re-useable galvanized steel roof anchor with D-ring
- Prosteel rope 5/8", with thimble and snaphook. End of rope has spliced terminator
- Re-sealable waterproof pail with handle

- RK-25 25ft rope Kit
- RK-50 50ft rope Kit
- RK-75 75ft rope Kit
- RK-100 100ft rope Kit

CSA Rope and Vertical Lifelines

High strength Prosteel co-polymer rope. 3-strand 5/8". End of rope has spliced terminator according to OSHA code. Lightweight but with low elongation (4.25% dry, 5.25% wet at 1,800lbs). 7,530lbs breaking strength. Does not harden with age. Mildew, abrasion and UV resistant. Floats.

Rope in bulk on 300ft, 600ft and 1,200ft spools

5/8" ROPE - co-polymer low stretch. CSA approved	25ft	50ft	75ft	100ft
Thimble one end, terminator the other end	RT-25	RT-50	RT-75	RT-100
Thimble & snaphook one end, terminator the other end	RTS-25	RTS-50	RTS-75	RTS-100
