

Temporary Horizontal Lifeline

Adjustable horizontal lifeline rated for fall arrest for 1 – 3 people. Extends up to 65ft, the 1 3/8" blue polyester webbing has a leather covered end loop for attaching to the anchor point. The lifeline is tightened with the zinc plated steel ratcheting tensioner. The unused end of the lifeline is stored out of the way in the sewn-on bag which doubles as the carrying bag for the system.

- Quick and easy system to erect
- Designed for up to three workers
- Simple to adjust and tension
- System designed and tested to CE0082 and EN795:1996 Class B standards for horizontal lifelines
- Components tested to CSA Z.259.13-04 norms
